Central Ohio Area Agency on Aging to Host Community Conversations across 8-County Region

Columbus, OH – The Central Ohio Area Agency on Aging (COAAA) is conducting a Needs Assessment as part of the Strategic Area Plan (SAP) process. Throughout the month of May, COAAA will coordinate with local agencies to host a *Community Conversation* in each county. The purpose of these conversations is to hear from county residents ages 60 years and older about their lived experiences in each county – how their communities support healthy aging, the services they rely on to maintain independence, and what resources they need to continue aging in place.

These Community Conversations will inform COAAA’s goals and objectives during the SAP’s four-year cycle, and will kick off a long-term strategy for engaging with community members on the issues that matter most. “Hearing from residents across the region is crucial to our planning process, said Katie White, COAAA Executive Director. These focus groups will enhance the community survey which is also being administered right now. If you have received the Central Ohio Regional Assessment on Aging survey in the mail, I encourage you to take the time to complete it, as it directly informs our regional planning, programming, and advocacy. We look forward to hosting these important conversations in all 8 counties of our service area.”
