## Background

Passed in 1965, the Older Americans Act (OAA) was passed in 1965 as part of President Johnson's "Great Society" initiative with the goal of supporting older Americans to live at home and in the community with dignity and independence for as long as possible. In addition to outlining the framework for local Area Agencies on Aging (AAA), the OAA authorized grants to states for community planning and services programs, as well as for research, demonstration, and training projects in the field of aging. Later amendments to the Act added grants to AAAs for local needs identification, planning, and funding of services.

OAA Title III funding is allocated by the Ohio Department of Aging on behalf of the Administration for Community Living. The distribution of funds, requirements, programs, and services align with the Older American Act Title III-B (Supportive Services) and Title III-C (Nutrition Programs), Title III-D (Evidence-based Programs) and Title III-E (National Family Caregiver Program).

## OAA Title III Program Eligibility

Participants are eligible if they are 60 years or older and require a service. However, services should be targeted to older individuals with the greatest social or economic need, with a special focus on low-income minority individuals and individuals living in rural areas. There are no income or asset/resource criteria for eligibility.

## Service Provider Requirements

Agencies applying for OAA Title III funds should be capable of providing programs and services to serve older and disabled adults in one or multiple Central Ohio counties (Delaware, Fairfield, Fayette, Franklin, Licking, Madison, Pickaway, and Union). Private, public, and not-for-profit agencies are eligible to apply. Agencies will be required to produce their Certificate of Good Standing from the Ohio Secretary of State's Office, and proof of commercial liability insurance. In addition, agencies applying to conduct nutrition programs are required to be licensed for food service and delivery (specifics outlined in [OAC 173-4-05](#)).

Providers are responsible for promoting their services to potential clients, identifying those clients, and enrolling them in available services/programming. COAAA will not refer clients to providers.

## Application, Contracting, and Program Cycles

Contracts are renewed each year of the 4-year program cycle. The current program cycle began on January 1, 2024 and ends on December 31, 2027. The next RFP for Title III OAA services will be released in Autumn of 2027 for the contracting period that begins January 1, 2028.
